Transform Your Workforce with a Digital Coworker

The next wave of AI innovation, custom AI Colleagues built for your enterprise

A 4-Step Path to Your AI Workforce

Onix leverages proven digital coworker blueprints, embeds your unique business rules, and integrates directly with your systems. Here's how we guide you from initial concept to a fully-scaled, continuously improving Digital Coworker:

1. Digital Coworker Blueprint

- Use industry-specific Agent Blueprints as proven starting points
- Identify high-value workflows for automation
- Capture essential business rules & logic
- Determine required data & knowledge sources
- Set success metrics

📅 **Timeline:** 1-2 weeks

2. Quick Win Pilot

- Develop core functionality to perform selected tasks
- Validate performance with real or simulated data
- Keep humans in the loop for review and correction
- Baseline integration with enterprise systems
- Measure ROI, efficiency gains, and user satisfaction

📅 **Timeline:** 4-6 weeks

3. Enterprise-ready Digital Coworker

- Full integration with enterprise systems
- Expand coverage to multiple tasks, teams, or business units
- Automate workflows, approvals, and routing
- Implement monitoring, governance, and compliance standards

📅 **Timeline:** 6-10 weeks

4. Continuous Upskilling

- Add new skills, domains, and advanced reasoning
- Adapt to changing policies, regulations, or business priorities
- Collaborate with other digital coworkers for cross-functional workflows
- Use monitoring, feedback, and analytics for continuous improvements

📅 **Timeline:** Ongoing

🚀 Onix Accelerators

Begin with our pre-built blueprints, designed for specific, high-impact industries and roles:

💼 Digital Underwriter	⚖️ Digital Legal Analyst	📄 Digital Financial Analyst	🛡️ Digital Compliance	📈 Digital Marketing
Risk assessment and policy evaluation using your rules	Document and contract analysis for your compliance requirements	Transaction processing and reconciliation using your workflows	Regulatory review and audit readiness with your policies	Generates campaigns for your customer segments and brand
